

## TRIPOLE - INSTALLATION

1. Open the tap of base tank and fill up about 45 liters of water.

2. Slide the tripod onto the pole. Insert pole into the hole in the center of the base tank.

3. Connect tripod to the water tank using snap rings.

4. Slide four rings through the pole.

5. Set the arm on the top of the pole.

6. Attach flag to pole and top bar using rings.

7. Press button on pole in and slide each section up in turn until they lock in place.

8. Slide the stopper above the lowest ring to prevent banner rolling in wind.
